PROJECTS

Digital Invitation & Greeting Creator

Node.js, MongoDB, MapmyIndia, HTML, CSS, JS, Ajax, Bootstrap.

We use MapMyIndia to add the venue in the invitation, so that guests can see where the event is at a glance. This website helps you create unique digital cards. The purpose is to create and send invitations and greeting cards digitally.

Emergency Vehicle Management System

Node.js, React Native, MySQL, Leaflet Maps, HTML, CSS, JS, Bootstrap.

In order to facilitate swift movement of emergency vehicles, this system helps manage traffic to reduce the chances of accidents.

Biometric System

Node.js, Python, Machine Learning, MySQL, HTML, CSS, JS, Bootstrap.

System which authenticates people by recognizing their faces. It usually takes less than a minute to register. The API section is included. There is also a dashboard that allows you to access, manipulate, and analyze the data.

City Command Control Center

Django, Node.js, Machine Learning, Data Scraping, Maps, HTML5, MongoDB.

The goal of this application is to collect data from social media, APIs, and our website/app and analyze them so we can visualize the data on a map, so citizens and support departments have a better understanding of the issues.
